SILVANA MERELLO

"Haz de resonancia" (80 x 60 cm)

SILVANA MERELLO

"...Silvana has managed to penetrate into the mystery with a powerful plastic equivalent that put her into an abstract and lyric expressionism together with such big artists as Rothko, Wols and Zao Wou-ki.

The important difference is that Silvana is Argentine and the nutritious sap comes from that land "Las Pampas" upon which our Buenos Aires is growing up. In her words: "Let us get the experience of a trip made of vibratory energies that purchase shape, colors and intensities and let ourselves go through every color to a new horizon...near and far". These are the consecutive horizons that the attendant will experience if he focuses in the spiritual adventure that translates into a visual adventure."

Rafael Squirru
