SILVANA MERELLO

Argentina

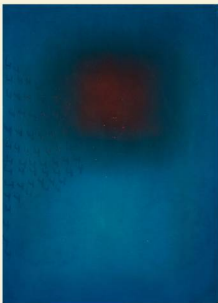

SILVANA MERELLO (Argentina, 1966) Self-taught artist, developed her love for painting since young age. After pursuing a Ph.D. in biology and postgraduate studies in business and economics, Merello returned to painting to explore deeper spiritual needs through introspection and art.

In the past decade, her artwork has been featured in numerous exhibits throughout Argentina, Canada, Dubai, Mexico, USA and ONU. Merello's artworks are found in private and public collections around the world.

"To accompany Silvana Merello in this trip to her own self means to dare ourselves into our own transformation. Plans that blur, veils that reveal, silences that speak, every picture comes as an evidence of the spiritual trip to its own essence". (Rafael Squirru)

"(...) Silvana Merello's works give us a mysterious source of visual pleasure, yet also invites us to visit the interpretation realm, an increasingly attractive place if we forget all set categories of works and artist, and dare to stroll along new paths, more risky, more wide and more linked to the primordial mystery of existence(...)".
